

# Overcounter Beer Cooler

Water Cooling System

## AS - 40

NEW DESIGN

- The **AS-40. 2011** Beer Cooling System is designed for professional beverage cooling in smaller restaurants, bars and in the catering industry.
- This machine is equipped with an inbuilt clarifier, which ensures a constant temperature throughout the whole water bath.
- If necessary, the clarifier may be adjusted for use as a cooling pump with a displacement of 1,5m.
- The **AS-40. 2011** has a continuous cooling capacity of 30-40l/h.
- The modern compressor cooling unit uses the power input for di-rect transfer to chilling, which guarantees minimum energy usage.
- **LINDR cooling technology is 45% more efficient** than its po-wer input.
- The cooling coils are made from stainless

steel.

- The materials used meet the highest requirements for hygiene standards and guarantee a long working life of this cooler.
- Two grab handles on the side of the machine enables the machine to be carried and moved with ease.
- The cooler also includes an adjustable temperature control with **7 different settings**.
- AS coolers maintain a leading position among professional coolers on the market due to their modern technology and performance.
